# 3X4 CURVED POP UP STAND

## Artwork Specifications

TOP VIEW footprint size

FRONT VIEW stand size

Although we need one flat piece of artwork please avoid running fine detail over the panel splits. Words are best spaced so that letters do not run over the splits.

Be aware that the left half of panel 1 and the right half of panel 6 will be wrapped around the stand to form the ends so nothing on these sections will be visible from the front.

Please supply your file as a same size hi-res PDF with images of at least 75 dpi.

We don't need any bleed or crops.

Be sure to embed all fonts, or convert them to outline.

We have all the major page layout and design software so can help with PDF generation if needed.

Please upload your files to [www.fineprint.wetransfer.com](http://www.fineprint.wetransfer.com)
